RESOLUTION 2021-186
RESOLUTION OF THE TOWNSHIP COMMITTEE OF THE TOWNSHIP OF MENDHAM SUPPORTING
ENHANCING THE STATUTORY REQUIREMENTS GOVERNING LAND USE APPLICATIONS MADE BY
EXPANDING THE 200 FT REQUIREMENT FOR NOTICE TO 400 FT

WHEREAS, Title 40 of New Jersey State Code, Section 40:55D-12 governs the practices of notices of applications and certain requirements for municipalities across the State of New Jersey; and

WHEREAS, Section 40:55D-12 requires applicants to send written notice of a public hearing that is postmarked at least 10 days prior to the scheduled public hearing to owners of all real property within 200 feet in all directions of the property up for discussion at the hearing; and

WHEREAS, applicants required to provide notice to neighboring properties are required to bear the burden of the costs of written notice to said property owners; and

WHEREAS, examples abound in which residents across the State of New Jersey have borne the burden of large-scale development that has negatively impacted the local environment, traffic, public infrastructure, and quality of life; and

WHEREAS, in too many cases residents across the State of New Jersey and in the County of Morris have faced the development of properties that are too large in scale, negatively impacting residents who reside in those communities; and

WHEREAS, residents are far too often provided short-notice of applications for developments made by commercial interests without having the opportunity to provide input due to the fact that only those who live within 200 ft of a property subject to an application are notified; and

WHEREAS, the 200 ft requirement is inadequate in providing proper notice to area residents as developments in municipalities impact quality of life far beyond 200 ft of the property; and

WHEREAS, the Township of Morris in the County of Morris seeks to exemplify best practices as they relate to land use practices, making reforms and in some instances taking on the costs to notify residents beyond the 200 ft requirement to ensure residents in the surrounding areas of applications have the opportunity to provide input and ask questions.

NOW, THEREFORE, BE IT RESOLVED the Township Committee of the Township of Morris hereby endorses proposals in the New Jersey State Legislature to enhance protections of residents of Mendham Township, and across the State of New Jersey, by increasing the 200 ft requirement to 400 ft for applications made by private, commercial entities for both residential and commercial use and urges our elected representatives to introduce or support such measures.

BE IT FURTHER RESOLVED that a copy of this resolution be sent to the NJ 25th Legislative District Representatives, Majority Leader of the NJ State Assembly, the President of the NJ Senate, the Governor of the State of NJ, the New Jersey State League of Municipalities, and Morris County municipalities.

A person shall be qualified to be a Noise Control Officer if the person meets the criteria set forth in the definition above and completes, at a frequency specified by the Department in N.J.A.C. 7:29-2.11, a noise certification and recertification course which are offered by the Department of Environmental Sciences of Cook College, Rutgers, the State University of New Jersey, or any other noise certification or recertification course which is offered by an accredited university and approved by the Department.
- B. Sound measurements made by a Noise Control Officer shall conform to the procedures set forth at N.J.A.C. 7:29-2, except that interior sound level measurements shall also conform with the procedures set forth in § 229-9B and C of this article and with the definition of "real property line" as contained herein.
- C. Noise Control Officers shall have the power to:
 - i) Coordinate the noise control activities of all departments in the Township of Mendham and cooperate with all other public bodies and agencies to the extent practicable.
 - ii) Review the actions of the Township of Mendham and advise of the effect, if any, of such actions on noise control.
 - iii) Review public and private projects subject to mandatory review or approval by other departments or boards for compliance with this article.
 - iv) Investigate and pursue possible violations of this article for sound levels which equal or exceed the sound levels set forth in Tables I and II when measured at a receiving property located within the designated jurisdiction of the Noise Control Officer, in accordance with **§ 229-11** below.
 - v) Cooperate with noise control officers of adjacent municipalities in enforcing one another's municipal noise ordinances.

§ 229-9. Maximum permissible sound levels.

- A. No person shall cause, allow or permit the operation of any source of sound on any source property listed in § 229-6A above in such a manner as to create a sound level that equals or exceeds the sound level limits set forth in Tables I and II when measured at or within the real property line of any of the receiving properties listed in Tables I and II, except as specified in Subsection B below.C1 1
[1] Editor's Note: Tables I and II are included at the end of this chapter.
- B. When measuring total sound or residual sound within a multi-use property or within a residential unit when the property line between it and the source property is a common wall, all exterior doors and windows shall be closed and the measurements shall be taken in the center of the room most affected by the noise. Residual sound shall be measured in accordance with N.J.A.C. 7:29-2.9(b)2. When measuring total sound or residual sound, all sound sources within the dwelling unit must be shut off (e.g., television, stereo). Measurements shall not be taken in areas which receive only casual use, such as hallways, closets and bathrooms.
- C. Indoor measurements shall only be taken if the sound source is on or within the same property as the receiving property, as in the case of a multi-use property (e.g., sound generated within a commercial unit of a multi-use property building and received within a residential unit of the same building) or multi-dwelling-unit building. In addition, indoor measurements shall be taken if the property line between the receiving property and the source property is a common wall, such as in multi-dwelling-unit building. The allowable sound level standards for indoors are as shown in Tables I and II.
- D. Impulsive sound. Between 7:00 a.m. and 10:00 p.m., impulsive sound shall not equal or exceed 80 decibels. Between 10:00 p.m. and 7:00 a.m., impulsive sound which occurs less than four times in any hour shall not equal or exceed 80 decibels. Impulsive sound which repeats four or more times in any hour shall be measured as impulsive sound and shall meet the requirements as shown in Table I.
